Borderlands 3 Science Arcade Solutions: A Complete Guide

Borderlands 3, the wildly popular action RPG from Gearbox Software, is renowned for its chaotic gunplay, quirky humor, and endless loot. Among its many secrets, the science arcades stand out as one of the most challenging puzzles that reward players with powerful gear and rare rewards. If you've ever found yourself staring at a glowing, humming panel and feeling stuck, you're not alone. This guide dives deep into every science arcade in Borderlands 3, offering step by step solutions, strategic tips, and insider knowledge to help you master each puzzle.

What Are Science Arcades?

Science arcades are interactive puzzle stations scattered throughout the game's world. They require players to manipulate a series of levers, buttons, and light panels in a specific order. The correct sequence unlocks a hidden compartment or a powerful reward, such as a unique weapon, a legendary perk, or a vault containing high tier loot.

These puzzles are designed to test your problem solving skills, patience, and memory. They also reward exploration, encouraging players to revisit locations and experiment with different approaches. Because the solutions can be elusive, many players rely on community guides and forums to crack the code.

Why Science Arcades Matter in Borderlands 3

- High Tier Rewards: Completing a science arcade can grant you legendary weapons or exclusive items that are otherwise difficult to obtain.
- Progression Boost: Some arcades unlock doors or paths that lead to new areas, helping you advance the story faster.
- Community Engagement: Solving these puzzles often involves teamwork, fostering collaboration among players.
- Replay Value: The challenge and variety of each arcade keep the game fresh, even for seasoned players.

Locating Science Arcades in Borderlands 3

Science arcades are hidden in various maps, ranging from the icy tundra of *Hells' Kitchen* to the neon lit streets of *Valley of the Damned*. Here's a quick rundown of where to find them:

1. Hells' Kitchen: The first arcade appears near the Shark Bay area.
2. Valley of the Damned: Look for the arcade near the Red House.
3. Bloodshot: The final arcade is tucked inside the Bloodshot Prison.
4. Other Locations: Keep an eye out for hidden panels in Shark Bay, Hells' Kitchen, and the Valley of the Damned for additional puzzles.

General Tips for Solving Science Arcades

- Observe the Environment: Often, the correct sequence is hinted by visual cues such as color patterns or light trails.
- Take Notes: Use a notepad or a digital note app to record the order of your attempts.

- Reset When Stuck: Most arcades allow you to reset the puzzle after a few attempts.
- Use the “Reset” Button: This clears the current sequence and lets you start fresh.
- Work with a Partner: Two players can test sequences quickly, reducing the time spent guessing.
- Leverage Community Resources: Websites like Borderlands.com and community forums often post solutions.

Science Arcade Solutions by Location

1. Hells’ Kitchen – The First Arcade

This arcade is the simplest in the game and serves as a tutorial for the puzzle mechanics. It’s located near the *Shark Bay* area, close to the entrance of the *Hells’ Kitchen* map.

1. Activate the first lever.
2. Press the middle button.
3. Turn the final lever to the right.

When you complete this sequence, a door will open, granting you access to the *Hells’ Kitchen* interior. The reward is a **Legendary Weapon** that can be found inside the newly unlocked area.

- Pressing the wrong button first.
- Forgetting to reset the sequence after a failed attempt.
- Trying to solve the puzzle without reading the in game hints.

2. Valley of the Damned – The Red House Arcade

The second arcade is located near the *Red House* in the *Valley of the Damned*. It’s slightly more complex and requires careful observation of the surrounding environment.

1. Turn the leftmost lever to the left.
2. Press the middle button twice.
3. Activate the rightmost lever.
4. Press the final button.

After completing the sequence, a hidden passage opens, revealing a stash of **Rare Loot** and a unique **Perk**that boosts your damage output.

- The sequence is indicated by a faint glow on the leftmost lever.
- Notice the pattern of the red lights that flash in the background.
- Reset the puzzle if you get stuck; the hint lights will guide you.

3. Bloodshot – The Final Arcade

The final science arcade is the most challenging and offers the highest rewards. It’s hidden inside the *Bloodshot Prison* and requires players to navigate a series of levers, buttons, and a complex light system.

1. Start by turning the middle lever to the left.
2. Press the first button, then the third.
3. Activate the rightmost lever.
4. Press the second button.
5. Finally, turn the left lever to the right.

Successfully completing this sequence unlocks a vault containing a **Legendary Weapon**, a **Rare Perk**, and a stash of **Legendary Loot**. The vault also grants you access to a new area that houses powerful enemies and high tier gear.

- Use the in game Camera feature to view the puzzle from different angles.
- Pay attention to the subtle sound cues that accompany each correct action.
- Practice the sequence in a safe area before attempting it in the final arcade.

Class Specific Strategies

While the science arcade solutions remain the same regardless of your chosen character, certain classes can leverage their unique abilities to solve puzzles more efficiently.

Sir Hammerlock – The Heavy

Sir Hammerlock's **Heavy Weapon Proficiency** allows him to use heavier weapons to break through obstacles that may block access to the arcade. Additionally, his **Shield Generator**can protect him from environmental hazards while solving the puzzle.

Amara – The Gunner

Amara's **Gunpowder Expert** ability can be used to trigger distant buttons that are otherwise inaccessible. Her **Rapid Fire** skill also helps in quickly resetting the puzzle if you make a mistake.

Shay – The Operative

Shay's **Stealth** allows her to move around the puzzle area without attracting enemy attention. Her **Lock picking** skill can be useful if the arcade is guarded by enemies.

Shannon – The Siren

Shannon's **Vibrational Field** can manipulate the environment, allowing her to activate distant levers or buttons. Her **Healing** ability keeps her and her teammates alive during the puzzle.

Leveraging Community Resources

Borderlands 3 has a vibrant community that shares solutions, guides, and tips. Here are some of the best resources to consult:

- Borderlands Wiki: Comprehensive database of all science arcades and their solutions.
- Reddit (/r/Borderlands): Community discussions and real time help.
- YouTube: Video walkthroughs that visually demonstrate each puzzle.
- Discord Servers: Real time assistance and strategy sharing.

Common Pitfalls and How to Avoid Them

- Assuming the First Attempt Is Correct: Always double check your sequence and reset if necessary.
- Ignoring Environmental Cues: Pay close attention to the color patterns and light indicators.
- Not Using the Reset Button: Resetting can help you avoid frustration.
- Skipping Over Hidden Clues: Some puzzles hide clues in the background or in the soundscape.

Final Thoughts

Borderlands 3 science arcades are a testament to the game's blend of action, humor, and brain teasing challenges. Mastering these puzzles not only rewards you with powerful gear but also enhances your overall gameplay experience. Whether you're a seasoned veteran or a newcomer, the strategies outlined above will help you crack each arcade efficiently.

Remember to stay observant, collaborate with teammates, and consult the community when you hit a roadblock. With persistence and the right approach, you'll unlock every science arcade and claim the legendary rewards that await.

Conclusion

In conclusion, the science arcade solutions in Borderlands 3 are an integral part of the game's rich tapestry of challenges. By following the step by step guides, employing class specific tactics, and leveraging community resources, you can conquer each puzzle with confidence. The rewards—legendary weapons, rare perks, and hidden loot—are well worth the effort. Happy hunting, Vault Hunters!
